Packaging type: Your Packaging

Weight/Dimensions: Depends on the customer's order. See below for details.

Delivery Methods:

FedEx – FedEx Standard Overnight

UPS – UPS Next Day Air Saver

USPS – Priority Mail Express 1-Day

Creating a shipping label with FedEx:

If you are unable to obtain an account number, you can create a shipping label from:

https://www.fedex.com/fcl/?appName=fclfsm&locale=us_en&step3URL=https%3A%2F%2Fwww.fedex.com%2Fshipping%2FshipEntryAction.do%3Fmethod%3DdoRegistration%26link%3D1%26locale%3Den_US%26urlparams%3Dus%26sType%3DF&returnurl=https%3A%2F%2Fwww.fedex.com%2Fshipping%2FshipEntryAction.do%3Fmethod%3DdoEntry%26link%3D1%26locale%3Den_US%26urlparams%3Dus%26sType%3DF&programIndicator=0.

The information supplied to you above will help you create this label. Email the label created to sklein@tamu.edu to ensure proper shipment of your order. If your order consists of **2 or more packages, separate labels** must be created and emailed to sklein@tamu.edu to ensure the order is properly shipped.

Dimensions and Weight of Packages

Standard and insulated packaging methods will fit 7 flats inside them (with or without eggs).
Cooler packaging method will fit 6 flats inside it (however ONLY 5 full flats of eggs).

Example order: 3 flats of egg shipped in insulated packaging

- Dimensions: 12.5 inches x 12.5 inches x 14 inches

- Weight: 1.32 lbs (box/insulation) + 11.88 lbs (flats of eggs) + 0.28 lbs (empty flats) = 13.48 lbs

If using this information to obtain a pre-paid or return postage label please read the following: Weight of egg flats may vary. Make sure you compensate extra on total weight of package when calculating label. If label does not cover the amount required for shipping, it will not be shipped and the order will only be mailed once appropriated postage coverage is obtained.

Standard Packaging

Box Dimensions:

12.5 inches x 12.5 inches x 14 inches

Box Weight:

0.98 lbs

Insulated Packaging

Box Dimensions:

12.5 inches x 12.5 inches x 14 inches
